EDUCATION HORIZONS

Designed to help education leaders anticipate what's next for their profession

CENTER FOR THE STUDY OF EDUCATION POLICY ILLINOIS STATE UNIVERSITY

ADVANCING EDUCATION THROUGH RESEARCH, POLICY, AND LEADERSHIP

Since 1967, the Center for the Study of Education Policy (CSEP) has partnered with schools, universities, government agencies, philanthropic organizations, and national leaders to transform research into evidence-based policies, programs, and practices that strengthen education systems and expand opportunity from early childhood through higher education.

Today, CSEP is helping shape the future of education by reimagining preK-12 educator and leadership pathways, evaluating transformative initiatives, and building systems that create lasting impact.

Education Horizons is not a roundup of headlines, it's a working tool for leaders who want to get ahead of change. Every issue is built around a single forward-looking question and delivers it through a consistent set of features:

- **Executive Brief** that distills the horizon in three lines;
- **Foresight Lens** that unpacks the forces at play;
- **Horizon Scan** of converging trends;
- **Research Summaries** leaders can read in five minutes;
- **Discussion-Read Questions** for leaders; and
- **Signal Check Poll** that lets subscribers weigh in and see how the field is responding

Every other month subscribers receive:

- A new Education Horizons strategic foresight brief highlighting an issue on the horizon for education;
- A live companion webinar the following month, bringing together experts and colleagues for deeper discussion;
- An interactive Signal Check poll to capture perspectives from education leaders; and
- Poll results and analysis shared with our subscriber community to reveal what education leaders across the country are thinking.
