Purpose of Reciprocal Teaching Strategy:

Reciprocal Teaching (Palinscar & Brown 1984) is a guided reading comprehension strategy that encourages students to develop the skills that effective readers and learners do automatically (summarise, question, clarify, predict and respond to what they are reading). Students use these four comprehension strategies on a common text, in pairs or small groups. Reciprocal Teaching can be used with fiction, non-fiction, prose or poetry.

Explicitly teaching reciprocal teaching:

Step 1

Scaffold student learning by modelling, guiding and applying the strategies while reading. Read a section of the text aloud and model the four steps – summarising, clarifying, questioning and predicting. (*predicting could be optional depending on the material).

Step 2

In groups of four allocate a role to each student i.e. summariser, questioner, clarifier and predictor.

Step 3

Have students read a few paragraphs of a text selection. Suggest to students they use note-taking strategies such as underlining, coding, etc.

Step 4

The predictor helps the group connect sections of the text by reviewing predictions from the previous section and helps the group predict what they will read about next by using clues and inferences in the text. The questioner helps the group to ask and answer questions about the text and reminds the group to use all types of questions (higher and lower order). The summariser restates the main ideas in the text and helps the group state the main idea or ideas in their own words. The clarifier helps the group find parts of the reading that are not clear and finds ways to clear up these difficulties.

Step 5

Roles in the group switch and the next selection of text is read. Students repeat the process in their new role. Repeat this process until text/topic selection is finished.

* Continue to guide the students in the use of the four strategies until they can use the strategy independently.
## Reciprocal Teaching

### Prediction:
Before you begin to read look at the title, scan the pages to read the major headings and look at any pictures/diagrams/bolded text, etc. Now write down your prediction(s):

### Summarise the Key or Main Ideas:
As you finish reading each paragraph or section identify the main idea.

<table>
<thead>
<tr>
<th>Idea 1:</th>
<th>Idea 2:</th>
<th>Idea 3:</th>
<th>Idea 4:</th>
</tr>
</thead>
</table>

### Question:
Create some questions related to the main ideas.

?  
?  
?  
?  

### Clarify:
Answer the questions posed and clarify the meaning of any words or phrases that are unclear.
The Questioner

- Ask questions which will help the group to understand what has been read.
- Think of questions to ask as you read the text.

- What is?
- Why is?
- How is?
- What did?
- Why did?
- How did?
- What can?
- When can?
- Why can?
- How can?

The Summariser

- Tell the group what you have read in your own words.
- Have the group pick out the main ideas.

- The most important ideas are ...
- The main idea is ...
- This part was about ...
- First, Next, Then ...
- This story takes place in ...
- The main events of ...
- The problem is ...

The Clarifier

You must clarify when:
- The group is confused by what they have read.
- When a word is read and not understood.
- When a sentence is read that doesn’t make sense.
- When a question is asked.
- Think about what you did to help you understand and tell the group. E.g. Reread the sentence looking for clues to help you figure out the word or phrase/Break the word apart and look for smaller words you already know/Look for a prefix or suffix/Look at the text features.

The Predicator

- Use what you have read and the text features to help figure out what the group will learn and/or what will happen in the next piece of text.
- The group can change their predictions as they read on!

- I think ...
- I wonder if ...
- I imagine ...
- I suppose ...
- I predict ...
- I think the next section will be about...
Reciprocal Reading – The FAb 4

As you read each paragraph or section fill in each reading skill box.

<table>
<thead>
<tr>
<th>1. Summarise</th>
<th>2. Ask Questions</th>
</tr>
</thead>
<tbody>
<tr>
<td>(Identify the main points and write 1 or 2 sentences to capture what you read)</td>
<td>(Listen to the questions going through your head...What will...How come. Write them down)</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>3. Clarify</th>
<th>4. Predict</th>
</tr>
</thead>
<tbody>
<tr>
<td>(List any unfamiliar words, relate to what you already know, answer any questions)</td>
<td>(Anticipate what might come next. Write down your predications)</td>
</tr>
</tbody>
</table>
In your group use this chart to guide your learning.

**Predications made:**
- We/I think
- We/I bet
- We/I wonder

**Questions asked (QAR strategy):**
- ‘Right There’ questions
- ‘Think and Search’ questions
- ‘On My Own’ questions
- ‘Author and You’ question

**Clarifications/Explanations needed:**
- I did not understand the part where...
- I need to know more about...

**Summaries:**
- The important ideas in what we read are....The overall gist of this is
Reciprocal Teaching Roles—Bookmarks

**Predicting**

A prediction is a good guess about what you think you will find out about or what will happen next in a text.

**Good readers** make predictions before they read and as they read.

**Stuff that helps you make a prediction . . .**

- Headings, pictures and other text features.
- The questions the author asks.
- Making connections to what you already know – your background knowledge and experience.
- Skimming, scanning and rereading the text.

**Prediction sentence starters:**

- Based on the title, subheadings, picture/diagram, etc, I predict that this page/chapter will be about...
- I think the next chapter (or page) will be about...
- From the questions I think that I will find out about...
- Based on (a clue), I imagine that...
- Based on what I know about... I believe that...

**Questioning**

Asking questions about a text helps you have a purpose or reason for reading and deepens your understanding.

**Good readers** ask themselves questions all the time while they are reading and read to answer those questions.

**Ask ‘teacher-like’ questions:**

- What is going on...?
- When is this happening?
- Where is...?
- Who will...?
- How is...?
- Why is...important?
- Why is that happening?
- How are ____ and ___ alike
  or different?
- Why would happen if...?
- What does ... mean?
- How will it ....?
- How come...?
- What might...?
- Why can...?
**Summarising**

**Summarising** a text means picking out the main ideas and leaving out anything that is not essential.

**Good readers** look for the main ideas as they read and can give ‘the gist’ of what they have read in their own words.

How to summarise what you read:

- Look at the topic sentences - the first sentence in each paragraph.
- Look at the concluding sentence or last sentence in each paragraph.
- Focus on key details.
- Use key words and phrases.
- Leave out little details that aren’t important.
- Write only enough to convey the gist.
- Use thinking maps, mind maps, graphic organisers, etc. to plan your summary.
- Use a coding system as you read.

**Clarifying**

**Clarifying** means making the meaning of the text clearer. Clarifying helps you recognise when you don’t understand parts of a text.

**Good readers**, when they notice they don’t understand what they’ve read take steps to restore meaning.

**You read it but haven’t got it when:**

- The voice inside your head has stopped.
- The camera in your head or the movie stops.
- Your mind begins to wander.
- You can’t remember what you just read.
- The questions you have are not answered.
- You have no idea what a word or phrase means or can say a word but don’t remember what it means.

**Clarifying or fix- it up strategies:**

- Re-read the part you don’t understand, you may ‘get it’ the second time.
- Read forwards and backwards.
- If it’s a word you don’t understand, use the rest of the sentence to figure out what it means.
- Look at the text features for clues.
- Use a dictionary to look up words
- Ask a student or your teacher for help.
