B-3 Self-Assessment & Action Planning Guide

Center for the Study of Education Policy

Birth through Third Grade (B-3) Continuity Project

The Illinois State Board of Education believes that a high-quality, intentionally aligned education system from birth to third grade is essential for the success of the State's highest-need children and is committed to ensure a high-quality, comprehensive system of teaching, learning, and support for children from birth through third grade. In order to more effectively serve Illinois children and families, the State is aligning and transforming state and local systems to assure collective impact across service sectors.

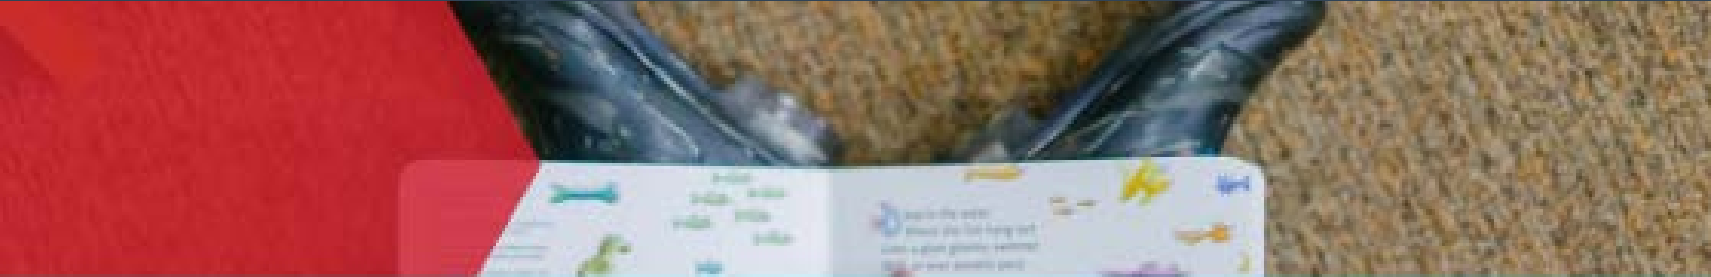

The mission of B-3 state supports is to strengthen Preschool Expansion communities' ability to develop a high quality, intentionally aligned education system from birth through third grade. This is accomplished through one or more B-3 approaches led by a team of community stakeholders. To see how your community aligns with the B-3 strategies communities can use the [B-3 Self-Assessment and Action Planning Guide](#) (also available as a [Web document](#)).

Upcoming Events and Training

- [February 26, 2019 | B-3 Continuity Community of Practice](#)
- [2019 B-3 Continuity Conference | June 12-13, 2019](#)
