<sup>\*</sup> Reported in Table 75, GRAPEVINE page 970.

The twelve states thus far cumulatively reported show weighted average gains of 30 per cent over the comparable data for fiscal year 1969-70, two years earlier.

These twelve states are nearly all below average in population, and in recent past years nearly all have been below the nationwide average in rates of gain in appropriations for annual operating expenses of higher education.

A year ago, these twelve states showed a weighted average gain of 33 1/3 per cent over the comparable figures of two years earlier, as compared with 38 1/2 per cent for all fifty states over the same two-year period.\*\*\*

GRAPEVINE is not a publication of any institution or association. Responsibility for any errors in the data, or for opinions expressed, is not to be attributed to any organization or person other than M. M. Chambers. GRAPEVINE is circulated to numerous key persons in each of the fifty states.

<sup>\*\*</sup> This total is larger by \$425,000 than previously reported, because appropriations in Kansas have been subsequently increased by that amount. This change modifies Table 76, GRAPEVINE page 973.

<sup>\*\*\*</sup> Computed from the tabulation on pages 424-427 in Higher Education in the Fifty States. Danville, Illinois: Interstate Printers and Publishers, Inc., 1970. 453 pp. \$10.

INDIANA. (Continued from page 979)

The total for fiscal year 1971-72 seems to be a gain of 30 1/2 per cent over the comparable sum for fiscal year 1969-70, two years earlier.

The 1971 legislature enacted an act creating a Commission for Higher Education, of 12 members appointed by the governor, one from each Congressional district, for 4-year terms. This is a "soft approach" coordinating body, limited almost entirely to advisory functions.

KANSAS. The total reported in Table 76, GRAPEVINE page 973, must be raised to \$84,313 because by a subsequent legislative quirk \$425,000 has been added.
