Two thirds of all the states are now currently reported in GRAPEVINE, as to appropriations of state tax funds for annual operating expenses of higher education for fiscal year 1973-74. California, largest of all, is included. Two others of the most populous ten-- Texas and Ohio-- also appear. The average of two-year gains among these 34 states is 26 per cent. Not yet reported are seven of the big states: New York, Pennsylvania, Illinois, Michigan, New Jersey, Florida, and Massachusetts. These big states, plus nine others not yet reported, involve at least 40 per cent of all the money that will be appropriated in the 50 state legislatures. GRAPEVINE will expect to circulate a complete or nearly complete report in October. Thus far the legislatures have merited a degree of confidence.

GRAPEVINE is not a publication of any institution or association. Responsibility for any errors in the data, or for opinions expressed, is not to be attributed to any organization or person other than M. M. Chambers. GRAPEVINE is circulated to numerous key persons in each of the fifty states.

NEW HAMPSHIRE. (Con't from precedng column) University of New Hampshire was advocated by Governor Thomson, but was defeated because the governor insisted on a lower appropriation for the university system than the legislature had voted.

On July 1, 1973 a new Post-Secondary Education Commission succeeded both the Coordinating Board of Advanced Education and Accreditation and the New Hampshire Higher Education Facilities Commission.

The new commission is primarily a "Section 1202" body as mandated in the act of Congress known as Public Law 92-318 (Education Amendments of 1972), and has an elaborate composition intended to assure broad representativeness, including proprietary educational enterprises. Both its composition and its duties reflect educational conditions peculiar to New Hampshire.
