"There is a promissory note out to the American people (that higher education will be supported by the public). It hasn't been called, but (because of wars) pushed back. There is an "aspiration package" that will be a much bigger force in higher education than we imagine. Many have the feeling that the dollars will run out. I feel they will not, that taxes will be raised to meet the needs."

--Patrick E. McCarthy, chancellor of the Massachusetts Board of Higher Education.

Statement of ownership and circulation of GRAPEVINE is on page 1228 (reverse hereof).

ELEVEN ADDITIONAL STATES SHOW AVERAGE TWO-YEAR GAINS OF THIRTY-SEVEN PER CENT.

Two-year gains of more than forty per cent are made by New York, Colorado, Nebraska, North Carolina, and South Carolina. South Carolina leads with two-year gain of seventy-two per cent.

FORTY STATES (CUMULATIVELY REPORTED PRIOR TO JULY 15, 1974) MAKE AVERAGE TWO-YEAR GAINS OF TWENTY-NINE PER CENT.

In recent prior issues GRAPEVINE has reported appropriations of state tax funds for annual operating expenses of higher education for fiscal year 1974-75 by 29 states. This present issue adds eleven states, bringing the total to forty. As successively reported in groups, thirteen states showed average two-year gains of 18 per cent; eight states, 28 per cent; eight states, 34 per cent; and eleven states, 37 per cent.

At the present moment, the cumulative average two-year gain for all 40 of the states is 29 per cent, which compares favorably with the average of 25 per cent reported for all fifty states for fiscal year 1973-74, one year earlier. The progression of 18-28-34-37 seems to sustain the tentative conjecture that an upturn is in the making.

GRAPEVINE is not a publication of any institution or association. Responsibility for any errors in the data, or for opinions expressed, is not to be attributed to any organization or person other than M. M. Chambers. GRAPEVINE is circulated to numerous key persons in each of the fifty states.
