**Illinois data include rapidly increasing appropriations made to the State Universities Retirement System (SURS) to address the historical underfunding of pension programs. Monies earmarked for SURS accounted for 33% of the total state support in FY 2013, 48% in FY 2016, 36% in FY 2017, and 37% in 2018. The relatively large proportion of funds earmarked for SURS in FY 2016 (48%) was due in part to the budget impasse at that time. These SURS appropriations do not go to individual institutions or agencies and are not available to be used for educational purposes.

**In the wake of Hurricane Maria, FY18 data for Puerto Rico are not yet available.
